

Mehran Khaksar

Front-End Developer

About Me

Front-End Developer with 4+ years of experience building scalable, high-performance web applications using React, Next.js, TypeScript, and GraphQL. Passionate about crafting clean, maintainable code and delivering seamless user experiences. Skilled in modern web technologies and collaborative, agile environments.

Projects

ONTV — Media Streaming Platform

AvinTech · Sep 2025 – Nov 2025

- Developed a high-performance streaming platform with Next.js, TypeScript, and Tailwind CSS.
- Built a custom video player supporting HLS live streaming and offline playback.
- Optimized performance via lazy loading, code splitting, and efficient asset management.
- Collaborated with backend teams on RESTful API integration and improved overall UI/UX.

Tech Stack: Next.js, React, TypeScript, Tailwind CSS, React Query, RESTful APIs, Git

Karlist — Enterprise Project Management Tool

AvinTech · Sep 2024 – Dec 2024

- Developed a complex front-end for enterprise project management with React and TypeScript.
- Implemented state and data management using React Query and optimized performance.
- Designed scalable architecture with modular components and responsive layouts.
- Collaborated closely with backend teams for API integration and real-time data handling.

Tech Stack: React, TypeScript, Vite, Tailwind CSS, Framer Motion, DndKit, Axios, React Query

Experience

Front-End Developer

AvinTech · Full-time · Tehran, Iran · Aug 2024 – Present

- Develop scalable, high-performance web applications using React and Next.js.
- Lead select projects, mentor team members, and conduct code reviews.
- Make architectural decisions to improve maintainability and scalability.
- Optimize performance through lazy loading, code splitting, and efficient asset management.
- Collaborate closely with backend teams on RESTful API integration.
- Utilize React Query, Tailwind CSS, and other modern front-end tools.
