

Mehran Khaksar

09210126985 | mehran9326@gmail.com | Tehran, Iran

Summary

Frontend Developer with 4+ years of experience building modern web applications with **React, Next.js, and TypeScript**.

I turn complex ideas into fast, intuitive, and maintainable experiences — with a strong focus on clean architecture, performance, and the details that make products feel polished.

Education

Sharif University of Technology | Tehran, Iran
Computer Engineering | 09/2023

Skills

React, Next.js, TypeScript, JavaScript, GraphQL, HTML & CSS, Tailwind CSS, REST APIs, Responsive Web Design, Vitest & React Testing Library, Git & GitHub, Redux Toolkit & Zustand, TanStack Query, React Hook Form, Zod, Sass / SCSS, Storybook, Web Performance, Internationalization (i18n), Docker, CI/CD

Experience

CafeRo — Independent Project | Tehran, Iran
Full-Stack Developer | 04/2026 - 09/2026

- Developed CafeRo, a full-stack café discovery platform, using Next.js, React, TypeScript, and Tailwind CSS.
- Built a responsive Persian RTL interface with café search, filtering by city, price range, and tags, and location-based discovery.
- Implemented phone-based OTP authentication, Google sign-in, session management, and personalized profiles with saved cafés and reviews.
- Developed backend APIs and PostgreSQL data models with Prisma, and integrated Hygraph through GraphQL for café content management.
- Built café submission workflows and an admin dashboard for moderating user-submitted cafés and reviews.
- Implemented SEO metadata, structured data, and dynamic sitemaps to support search engine discoverability.

AvinTech | Tehran, Iran
Front-End Developer | 08/2024

- Develop and maintain modern, responsive web applications using React, Next.js, and TypeScript, with a focus on performance, scalability, and maintainable architecture.
- Build reusable, component-based UI systems with Tailwind CSS and shadcn/ui, improving consistency and development efficiency.
- Integrate RESTful APIs and GraphQL services, implementing efficient data fetching and state management with React Query and SWR.
- Develop enterprise and content-driven platforms featuring campaigns, multimedia content, news, and interactive web experiences.
- Optimize frontend performance, image loading, caching, and responsive behavior to deliver fast and reliable experiences across devices.
- Build complex UI interactions and reusable components, including responsive carousels, infinite marquees, filtering systems, pagination, and dynamic content sections.
- Collaborate with backend developers and team members to integrate APIs, troubleshoot technical issues, and deliver production-ready features.
- Improve code quality, reusability, and frontend architecture by following clean, scalable, and maintainable development practices.

Certificates

Testing Next.js (React) Apps — The Net Ninja | Mar 2026, Unit Testing (Vitest) — The Net Ninja | Dec 2025
